FYI

Company Profile (<http://semsinc.net/profile.htm>)

SEMS, Inc. (SEMS) is an environmental management and specialties services firm that offers a full range of capabilities to assist industries in complying with federal, state, and local environmental regulations.

Some key facts about SEMS are as follows:

- SEMS was founded in 1992 in Baton Rouge, Louisiana, which serves as our corporate office;
- SEMS has established branch offices located in Nashville (1993) and Memphis (1995), Tennessee;
- SEMS Maintains a high level of customer service and is responsive to the individual needs of each client, whether for small or larger scale projects; and
- SEMS has maintained minimal operational costs throughout the growth process in order to remain cost competitive for every type ad size project.

SEMS offers environmental management services for our clients in three major service lines or divisions:

- Environmental Engineering Services;
- Fuel Storage Tank and Oil/Water Separator System Services; and
- Environmental Construction and Remediation Services.

SEMS has or is currently working for clients who do business in the following areas:

- Petrochemical Plants;
- Pipeline Companies;
- Industrial Facilities;
- Oil Marketers;
- Refineries;
- Manufacturing Companies;
- Banking Institutions;

9567055

- Legal Organizations;
- Real Estate Companies;
- Local, State, and Federal Agencies; and
- Transportation Related Companies.

SEMS supports its clients in complying with the following federal and state regulations:

- Resource Conservation and Recovery Act (RCRA);
- Comprehensive Environmental Response, Compensation and Liability Act (CERCLA);
- Superfund Amendment and Reauthorization Act (SARA);
- Clean Water Act (CWA);
- Clean Air Act (CAA);
- Occupational Safety and Health Administration (OSHA); and
- Oil Pollution Act (OPA).
